## **SUMMARY**

**We would like to provide our sponsors with a good image and promote their products in the best light. My priority on faith, family and passion for fishing are my base. My fishing success is only possible with that base and my sponsors. That is why I work hard to promote products I use and believe in. Being true to yourself shows when I speak of my sponsors. I am sincerely thankful for all the opportunities I have been given. I love helping my sponsors make money, while keeping a good image.**
